-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, drawn to a zero gravity casino.

Group II, claim(s) 4, drawn to a simulated zero gravity casino.

Group III, claim(s) 5, drawn to a zero gravity roulette game.

Group IV, claim(s) 6, drawn to a zero gravity craps game.

Group V, claim(s) 7-9, drawn to a zero gravity lottery game.

Group VI, claim(s) 10, drawn to a zero gravity Space Pool game.

Group VII, claim(s) 11 and 12, drawn to a method of operating a game in a zero gravity environment.

Group VIII, claim(s) 13, drawn to a method of confining, randomizing, and controlling moving objects in a zero-gravity environment.

2. The groups of inventions listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups II-VIII are lacking seating devices for positioning and holding players within playing distance

Groups I, III-VIII are lacking a simulated game environment

Groups I, II, IV-VIII are lacking a roulette game board

Groups I-III, V-VIII are lacking a craps game board

Groups I-IV, VI-VIII are lacking an enclosed transparent chamber adapted to receive floating balls and to prevent the balls from floating away in zero gravity

Groups I-V, VII-VIII are lacking a robotic pool cue means for remotely shooting a ball within the chamber.

Groups I-VI, VIII are lacking viewing all activity within the chamber

Groups I-VII are lacking stopping the motion of the objects by introducing an electromagnetic field within the chamber at a random time.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected invention or species.

Should applicant traverse on the ground that the inventions have unity of invention (37 CFR 1.475(a)), applicant must provide reasons in support thereof. Applicant may submit evidence or identify such evidence now of record showing the inventions to be obvious variants or clearly admit on the record that this is the case.

Where such evidence or admission is provided by applicant, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
